

# Acid Truck Wash

Cleaner for Concrete Handling Tools, Machinery and Trucks

## Description:

Acid Truck Wash is a concentrated mixture of detergents and acids with co-solvents for use in cleaning concrete residues from concrete handling tools, machinery and trucks.

## Directions For Use:

Acid Truck Wash should be applied where concrete residue has set or started to set on tools machinery and trucks and must be removed. Apply directly to the concrete encrustation and allow to remain 3 to 5 minutes. Immediately flush with large amounts of clean tap water. Repeat if necessary. The strong nature of this product dictates cautions deliberate use.

The first time the cleaner is used it may be necessary to agitate the surface with a mop or brush, especially if deposits have been allowed to build up over an extended time.

## Typical Properties:

BOILING POINT: 176°F

SPECIFIC GRAVITY: 1.16

VAPOR PRESSURE: approx 25mm Hg @ 20°C

PERCENT VOLATILE BY VOLUME: 100%

VAPOR DENSITY: N/A

EVAPORATION RATE (H<sub>2</sub>O = 1): 1

SOLUBILITY IN WATER: Complete
