

Super 7

High Alkaline Hard Surface Cleaner

Description:

Super 7 is a concentrated mixture of detergents and alkaline builders with co-solvents for use in cleaning heavily soiled surfaces of all types. It may also be used in dilute form to clean heavily soiled or greasy fabrics. Super 7 should not be used or allowed to dry on glass.

Directions For Use:

Super 7 should be added at a rate of 2 to 12 oz per gallon of warm water for use as a floor wax stripping, mopping, wiping or fabric cleaning solution. This dilution should be mopped, sponged or sprayed on the soiled area, and rinse mopped, sponged, pressure washed or wiped with clean cold water. For extremely soiled areas, the undiluted product can be applied with a spray bottle, allowed to sit for a minute or two, and then wiped free, followed by a clean water rinse.

Typical Properties:

BOILING POINT: 212°F

SPECIFIC GRAVITY: 1.05

VAPOR PRESSURE: N/A

PERCENT VOLATILE BY VOLUME: 86.4%

VAPOR DENSITY: N/A

EVAPORATION RATE (H₂O = 1): 1

SOLUBILITY IN WATER: Complete

APPEARANCE AND ODOR: Clear, water thin yellow/green liquid with a slight butyl odor.

pH AS RECEIVED: >11 (estimated)
