

# Auto Clean Up

## Vehicle Cleaner Concentrate

### **Description:**

Auto Clean Up is a concentrated mixture of detergents and alkaline builders with for use in cleaning heavily soiled surfaces of vehicles of all types. Auto Clean Up was specifically formulated to be environmentally friendly.

### **Directions For Use:**

Auto Clean Up should be used at a rate of 1 part Auto Clean Up to 20 parts water. This dilution should be sprayed, steamed, mopped or sponged on the soiled area, and rinse mopped, sponged, pressure washed or otherwise rinsed with clean cold water. For extremely soiled areas, the undiluted product can be applied with a spray bottle, allowed to sit for a minute or two, and then wiped or rinsed free, followed by a clean water rinse. Rinsing is particularly important when applied to glass surfaces, as etching of glass occurs if the product is allowed to dry on bare glass.

### **Typical Properties:**

BOILING POINT: 212°F

SPECIFIC GRAVITY: 1.03

PERCENT VOLATILE BY VOLUME: <85%

VAPOR DENSITY: 1

EVAPORATION RATE (H<sub>2</sub>O = 1): 1

SOLUBILITY IN WATER: Complete

APPEARANCE AND ODOR: Clear to slightly pink liquid with a slight odor

pH 1% aqueous solution: <9.0
