

POE 505

Multi-Purpose Solvent Cleaner

Description:

POE 505 is a mixture of solvents for use in cleaning hard to remove residues of all types which are resistant to water and traditional solvent type cleaners or where traditional organic solvents cannot be used. POE 505 Does not contain CAA HAP's.

Directions For Use:

POE 5095 should be lightly misted on the surface to be cleaned and allowed to sit a minute. The surface may then be wiped clean using an appropriate material. The product may also be mopped or wiped on as needed until the problem residue is removed.

POE 505 is excellent for releasing hard to dissolve adhesives (including many hot-melt and water resistant types), mastics, paint, coatings and other industrial materials from sensitive substrates. POE 505 is formulated with a mixture of non-HAP listed organic solvents and does not contain acids, chromates, chlorinated solvents, phenol, or chlorinated benzenes.

Physical Data:

BOILING POINT: N/A
SPECIFIC GRAVITY: 1.082
VAPOR PRESSURE: N/A
PERCENT VOLATILE BY VOLUME: >87.25%
VAPOR DENSITY: N/A
EVAPORATION RATE (H₂O = 1): <1
SOLUBILITY IN WATER: Complete
APPEARANCE AND ODOR: Clear liquid with a slight odor
pH AS RECEIVED: N/A (product is essentially anhydrous)
